

ILALA LODGE HOTEL - BRAND MANUAL

VISUAL BRAND IDENTITY GUIDELINES

The goal of this document is to ensure that the Ilala Lodge Hotel, brand identity is consistently applied throughout all forms of communication, ranging from print and e-advertisements, corporate stationery and various other media. This document serves as a manual for the use of the brands' logo and other visual elements utilised by the brand.

LOOK & FEEL

SPECIFICATIONS:

The group is known by its green and white combination. These colours can be used interchangeably as font and background colours to achieve maximum contrast.

The green and white can also be used in conjunctions with the other colours.

The gold color is the standard accent color to be used in designs to add depth and effect. It is not to be used as a logo color in print or digital. It may be used for logo color for outdoor signage and shirt embroidery.

APPLICATION OF LOGO

The logo must always be used in one of the branded colours. It may not be presented in any other colour. If possible the logo must stay on one of the same stipulated colour backgrounds.

Wherever the logo is displayed the dimensions must be kept and it can not be manipulated in anyway it must remain in the rectangular format. Do not vertically or horizontally distort or change the logo proportions in anyway.

Always use the logo on the correct colour background in order to show the contrast of the two colours.

APPLICATION OF LOGO AND TEXT ON AN IMAGE

The most important part of placing the logo on an image is contrast and visibility. Any of the logo colour variations (green or white) maybe used. The colour combination should be chosen in relation to the relevant image.

Select a photograph that compliments the logo. Photographs should have natural light, be evocative and not overly edited.

The image titles font can be used over the image. The minimum size for this font over an image should be 30px.

Headlines should be short and no more than 5 words per photograph.
